

LADS

Season 5

Constructors

In order to reward the most engaged Constructors from last season, and hold the others accountable, Season 5 introduces a streamlined three-Constructor model, each led by a single Team Principal (**TP**). Each Constructor must recruit a minimum of 2 drivers.

Each of the below TPs will build their own team by recruiting from the wider Constructor Pool (i.e. Manith, Kush, TJ, Gihan, Hari, Kas, Dulith, Chaz & Chamila) will all need to be recruited by the TPs into their respective teams). If you fail to get recruited into any Constructor, you will not be able to participate.

This model rewards engagement, commitment and performance (you earn your seat on a team) and removes ambiguity over who is in charge.

Super Licence Fees (SLF)

- The Super Licence Fee (**SLF**) is the fee which must be paid to enter each driver into the League.
- The SLF is payable by the Constructor to the League in respect of their 2 Drivers.
- Each Driver's SLF is the amount of money they will be paid out if (and only if) their Constructor wins the Constructor's Championship:
 - Only the 2 Drivers who are a part of the winning Constructor at the end of the season will win their respective SLFs – any previous Drivers who were traded out from the winning Constructor will **not** receive their SLFs.
 - Constructors are strictly prohibited from offering their Drivers any money, benefits, or in-kind payments outside of the agreed SLF. All compensation paid to Drivers must be within the Budget Cap.
- The sum of all SLFs collected from all Constructors forms the **Total Prize Pool** for the season. Aside from the SLFs payable to the Drivers of the winning Constructor, all other winnings shall be payable to the Constructors.
- All winnings from the Total Prize Pool (Race Winner Pool and Championship Fund) will be paid out at the end of the season.

Prize Pool Distribution

The Total Prize Pool is distributed as follows:

Pool Segment	% of Total Pot	Who Gets It
Race Winnings	50%	1st, 2nd, 3rd (split)
Championship Fund	50%	Winning Constructor (including winning Drivers' SLFs)

Race Winnings Breakdown

The Race Winnings (50% of Total Prize Pool) is distributed as follows:

Finish Position	% of Total Pot
 1st Place	25%
 2nd Place	15%
 3rd Place	10%

EXAMPLE

If the Prize Pool for the Race = \$40

The Constructors finishing 1st, 2nd and 3rd will get 50% = \$20 total

Therefore, 1st Place gets \$10 (i.e. 25% of \$40), 2nd Place gets \$6 (i.e. 15% of \$40) and 3rd Place gets \$4 (i.e. 10% of \$40).

\$20 (i.e. 50% of the Prize Pool) is contributed to the Championship Fund.

Budget Cap

- Each Constructor has a **\$500 Budget Cap** to spend on SLFs in respect of 2 Drivers.
- 10% of all winnings payable to the League to fund overheads.
- Importantly, the Budget Cap is a **dynamic ledger** – it can be increased/restored and decreased/consumed as follows:

STARTING BUDGET CAP

\$500

Cap Consumed (–)

Driver SLFs

- The combined Super License Fees of your three drivers, locked in at signing, will consume your Budget Cap

Trade Fees Paid

- Any trade fees paid to another Constructor acquire a driver during the mid-season trade window will consume your Budget Cap.

Cap Restored (+)

Race Winnings

Prize money from on-track results will increase/restore your cap.

Trade Fees Received

Any trade fees received from other Constructors to acquire your driver(s) during the mid-season trade window increase/restore your Budget Cap.

Side Bet Winnings

Your aggregate winnings from the side-betting market.¹

¹ Please note, any losses incurred as a result of side bets will not consume/deplete your Budget Cap. Therefore, this system rewards Constructors that are willing to make more side bets and take greater risks throughout the season.

Driver Recruitment & Contract

8 Drivers are split into 3.5 tiers – each tier has a **minimum SLF** payable, as follows:

Tier	Drivers	Minimum/Starting Bid
Tier 1 (Elite)	Mapa & Nuwie G	≥ \$251
Tier 1.5 (Excellent)	Sahan & Rodda	≥ \$200
Tier 2 (Midfield)	Kalpa, Shahan & Sameera	≥ \$125
Tier 3 (Developing)	Shiyan, Eranga & Nippa	≥ \$25

Driver Recruitment

1

Private Negotiations

Teams engage in confidential, 1-on-1 talks with the Drivers to negotiate the Driver SLF and Release Clause.

1-on-1 forums only:

Constructors may engage with multiple Drivers in parallel so long as each conversation is strictly 1-on-1 (separate chats/calls/DMs). Constructors must not place two or more Drivers in the same forum (group chat, call, meeting, server channel, or in-person).

Optional all-hands pitch:

Constructors may present one identical pitch to all Drivers at once.

No binding contract:

Constructors are prohibited from entering into binding agreements with Drivers prior to Deadline

2

Deadline Day Bids

On Deadline Day, each Driver confidentially submits their preferred Constructor at the same time.

Drivers' Bids: Each Driver must include the name of the preferred Constructor, the Super Licence Fee and details of any applicable Release Clause in their bid.

Constructors' Discretion: Each Constructor has the discretion to either accept or reject a Driver who has selected them as their preferred Constructor. The Constructor may respond to Drivers' bids with counteroffers in respect of the Super Licence Fees/Release Clause. Once a Constructor is happy with the terms of the bid, they may sign the Driver (confidentially) and the Driver will be notified.

3

Multiple Rounds

The process is repeated multiple times until all Drivers have been signed to a Constructor.

Multiple Rounds: This process is repeated multiple times until all Drivers have been signed to a Constructor.

Announcement: Once a Constructor signs 2 Drivers, it will be publicly announced; however the names of the Drivers will not be revealed.

Impasse: If after 3 consecutive bidding rounds, neither the relevant Driver or Constructor adjust their bid to reach a compromise, both the relevant Driver's minimum SLF floor and Constructor's remaining budget cap will be reduced by \$10 per subsequent round.

4

Final Rosters Announced

Once all Drivers have been signed, the details of the Drivers signed by each Constructor will be publicly announced.

Constructors are STRICTLY PROHIBITED from disclosing who they are negotiating with or mentioning other Drivers' names/offers as leverage to sign another Driver.

Drivers are STRICTLY PROHIBITED from discussing offers, intentions, or team preferences with other Drivers and Constructors until the final rosters have been announced.

Driver Contract

A Driver's contract comprises only **two** negotiable points.

Super Licence Fee

The amount of money that the Driver will be paid if (and only if) their Constructor wins the Constructor's Championship

- Consumes budget cap space at signing.
- If the team doesn't win, the SLF is NEVER paid.
- Minimum SLFs are set for each Driver Tier:
 - Tier 1: ≥ \$251
 - Tier 2: ≥ \$125
 - Tier 3: ≥ \$25

Release Clause (Optional)

This is an optional loyalty clause aimed to prohibit a Constructor from actively shopping/initiating a trade of their Driver during the mid-season trade window based on the Driver's position in the standings at the mid-season checkpoint (e.g. if the Driver is < 4th in the Drivers Standings, the Release Clause is triggered, and the Constructor may actively shop such Driver to facilitate a trade. However, if the Driver is ≥ 3rd in the Drivers Standings, the Constructor is prohibited from initiating a trade their Driver).

For the avoidance of doubt, the Release Clause does **not** block an external bid from another Constructor. The driver's Veto and ROFR still apply (see Mid-Season Trade Window for more information).

IMPORTANT

Constructors are **strictly prohibited** from offering Drivers any money, benefits, or in-kind payments outside of the agreed Super Licence Fee.

All compensation paid to Drivers must be captured by the Super Licence Fee and must be within the Budget Cap.

Mid-Season Driver Trade Window

1

THE BID

Constructors are entitled (subject to the Release Clause) to make an open, cash-only bid for a Driver using the money remaining in their Budget Cap.

2

THE “ROFR”

The Constructor which owns the Driver has the “Right of First Refusal” – that is, they can **match the top bid** to block the trade, but only if they have enough money remaining in their Budget Cap.

3

THE DRIVER VETO

The Driver has a final veto right to block the trade but must pay a Veto Fee to the League to exercise it, as follows:

Tier 1 = \$100 | Tier 2 = \$70 | Tier 3 = \$30

IMPLICATIONS OF A DRIVER TRADE

Buyer’s Budget Cap

Decreases by the Trade Fee

Seller’s Budget Cap

Increases by the Trade Fee

Driver’s Super Licence Fee

The SLF for the traded Driver shifts to the new Constructor and is split pro-rata.

Racing Format & Regulations

Race Calendar

The season will span the course of 2026 with races scheduled every **fortnight**. Details of the Race Calendar will be published in due course.

Race Format

- **Qualifying:** All races use One-Shot Qualifying: each Driver does one hot lap to set their grid position.
- **Race Format:** Each Race Weekend will comprise 1x Sprint Race and 1x **35%** Feature Race (except the last round – see below).
- **Wildcard System:** Same as previous season
 - **Track Selection:** Wildcard tracks are randomly selected by the league from a pool of pre-determined circuits, which shall not be repeated more than once during the season.
 - **Staggered Track Reveal:** The chosen track is revealed to drivers privately and individually on a staggered timeline based on their current position in the Drivers' Championship standings (in reverse order). The lowest-ranked driver is informed first, with the championship leader being the last to learn the track immediately prior to the race weekend, providing a significant practice handicap.
 - **Final Race Weekend (Abu Dhabi):** The final race weekend will consist of three (3) Sprint Races and one (1) Feature Race. There are no double points for the final weekend; all races will be scored according to the standard points system.

Specific Driver Handicaps

Please note, the handicaps below may be subject to change during the season.

- **Mapa:** VR Headset, No Racing Line and No Assists.
- **Nuwie G, Rodda & Sahan:** No Racing Line and No Assists.
- **Sameera, Kalpa & Shahan:** No Assists except for Racing Line.
- **Shiyan, Eranga & Nippa E:** Maximum Assists.

New Regulations in Season 5

- Car Damage will be increased from “Reduced” to “Standard”.
- 25% Feature Races will be increased to 35% Feature Races.

Points System

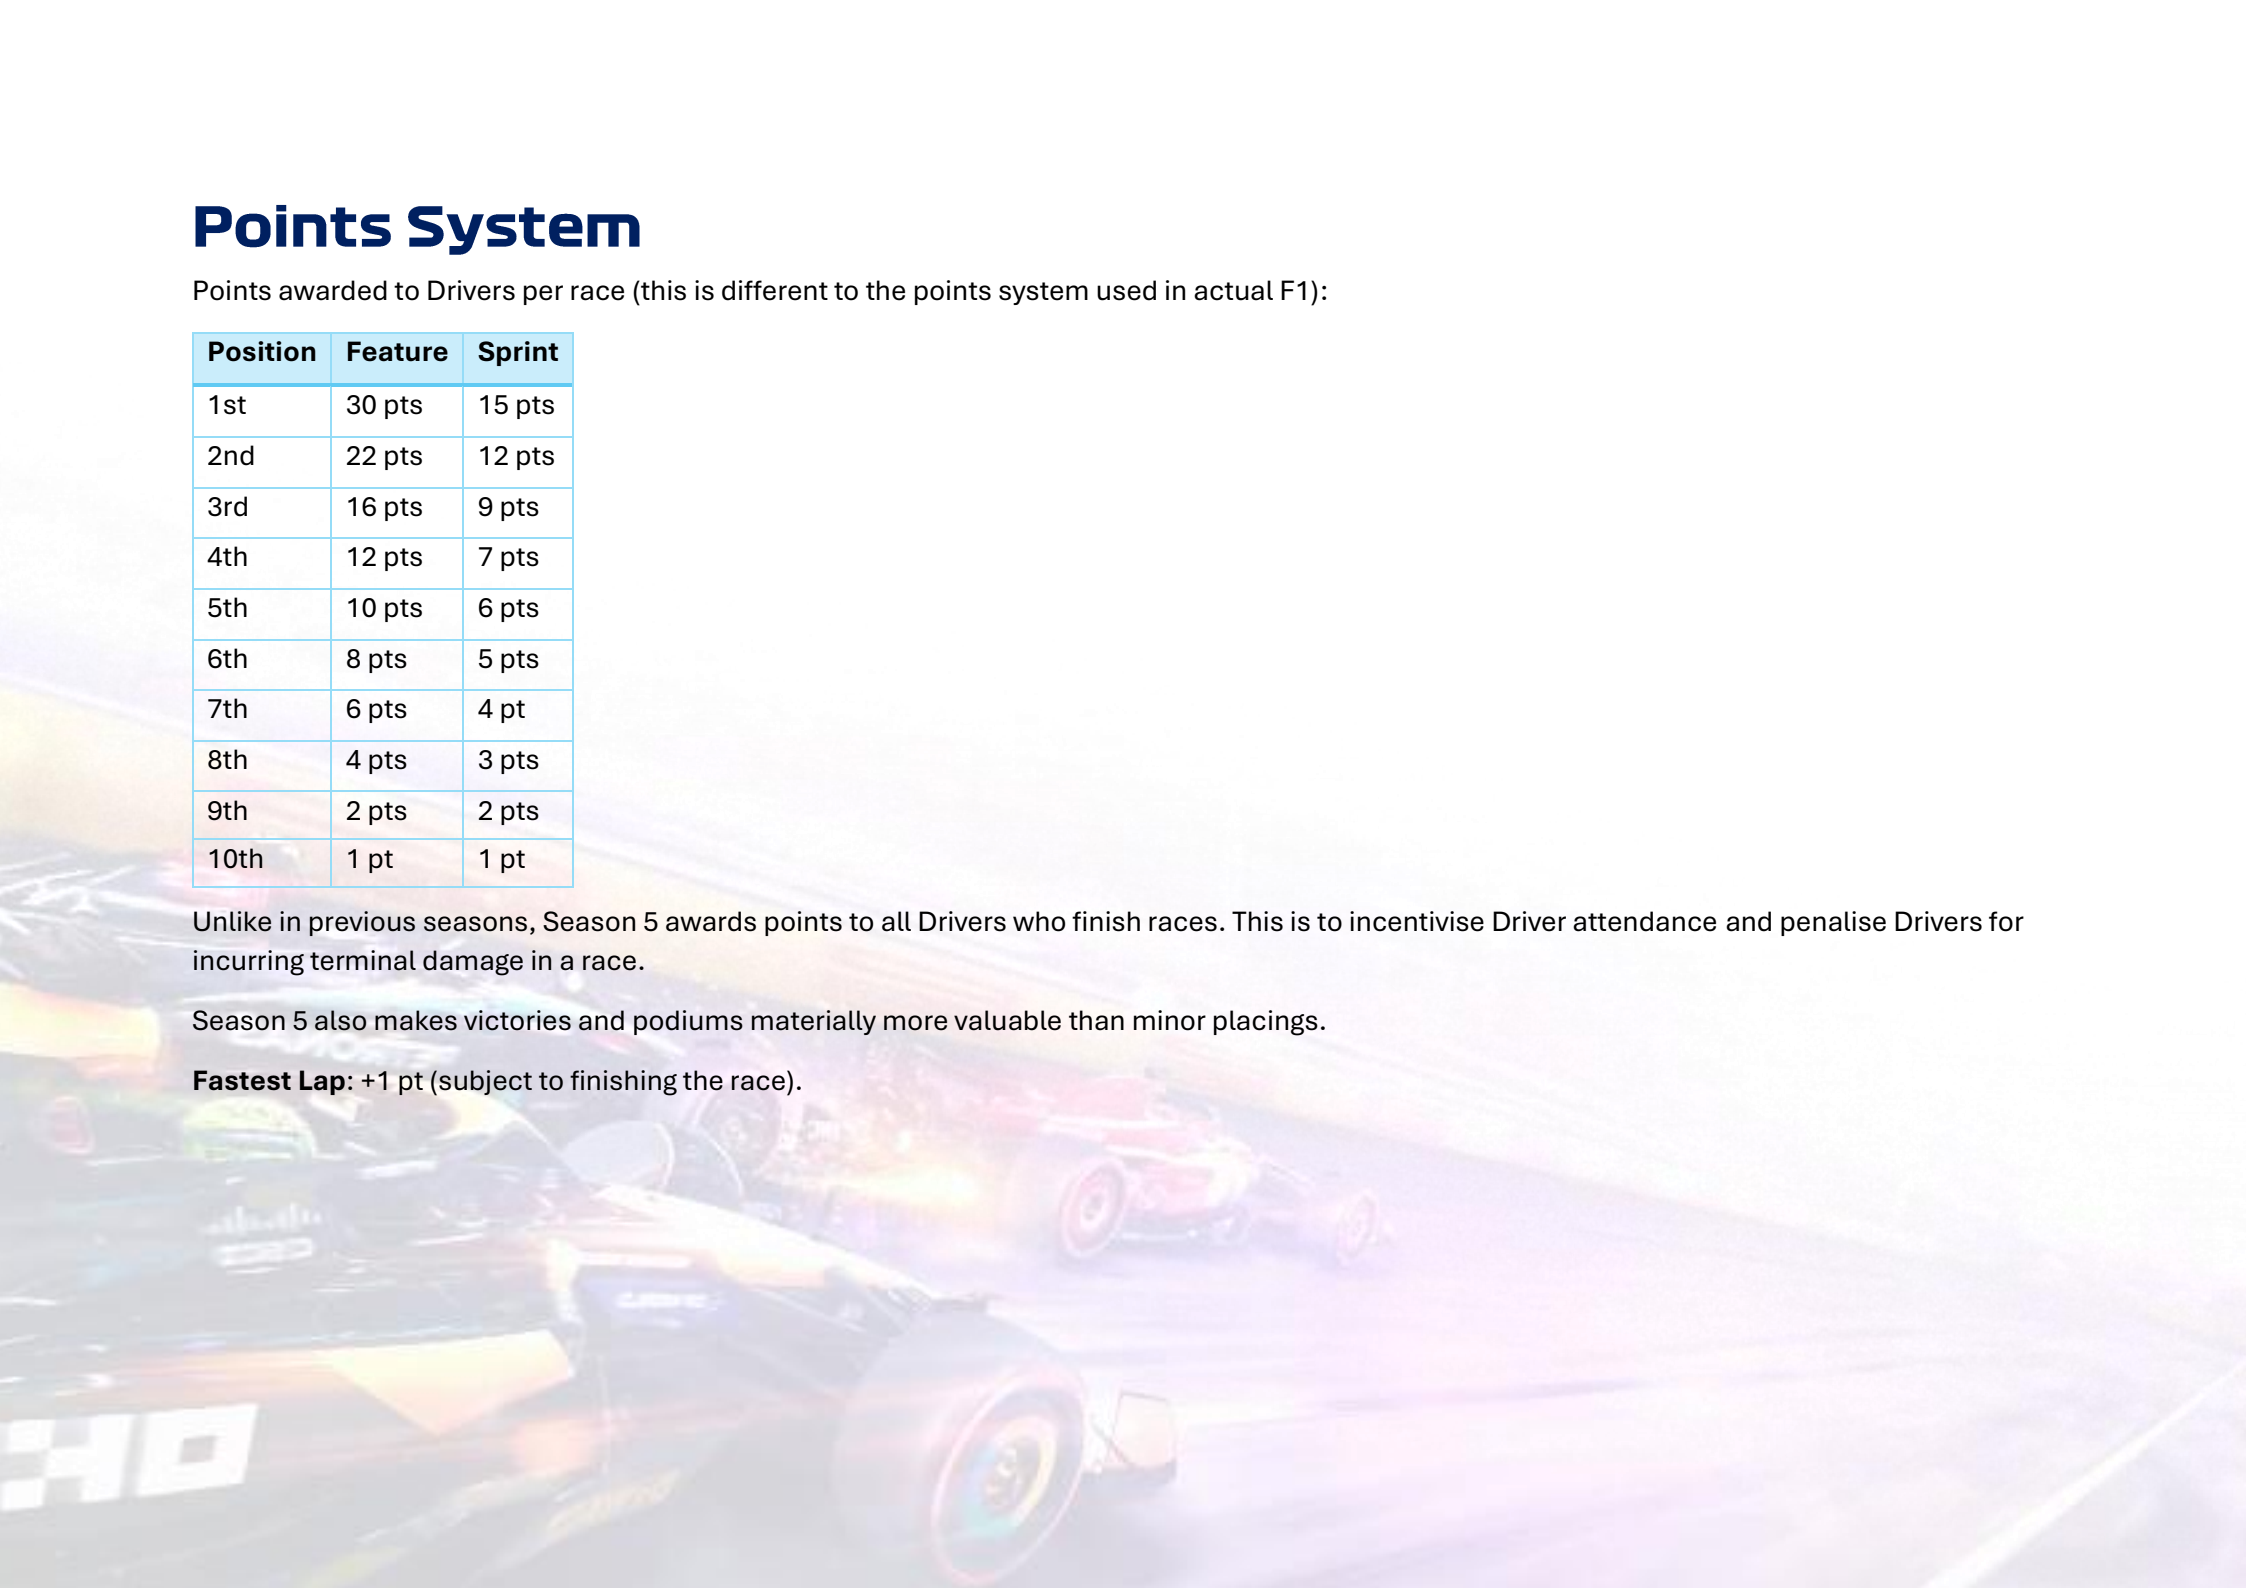

Points awarded to Drivers per race (this is different to the points system used in actual F1):

Position	Feature	Sprint
1st	30 pts	15 pts
2nd	22 pts	12 pts
3rd	16 pts	9 pts
4th	12 pts	7 pts
5th	10 pts	6 pts
6th	8 pts	5 pts
7th	6 pts	4 pt
8th	4 pts	3 pts
9th	2 pts	2 pts
10th	1 pt	1 pt

Unlike in previous seasons, Season 5 awards points to all Drivers who finish races. This is to incentivise Driver attendance and penalise Drivers for incurring terminal damage in a race.

Season 5 also makes victories and podiums materially more valuable than minor placings.

Fastest Lap: +1 pt (subject to finishing the race).

Side Betting

How does it work?

One bet per person, per race

Before each race, each Constructor may place one bet on the single Driver they believe will win that race.

Weighted buy-ins (set by the League)

Each Driver has a pre-set buy-in reflecting current form (favourites cost more; longshots cost less). Buy-ins are published by the League before the race.

Build the pot

For a race, the pot = sum of all buy-ins + any rollover from prior races.

Winner takes all (equal split)

Anyone who correctly bet on the race-winning Driver splits the entire pot equally.

10% League fee on payout only.

A 10% fee is deducted from the pot only when there are winner(s); the remaining 90% is split equally among the correct bettors.

No winner → full rollover.

If no one picked the winning Driver, no fee is taken and the entire pot rolls over to the next race, creating a jackpot.

Cut-off & no live betting.

Bets close before lights-out. No in-race or post-qualifying edits after the published cut-off.

IMPORTANT: Impact on Budget Cap

Each Constructor's budget cap will be increased by the amount of their winnings and decreased by the amount of the buy-ins. Therefore, side betting will form an integral part of Constructors' influence and leverage during the Mid-Season Driver Trade Window in terms of being able to exercise the "Right of First Refusal" and out-bid other Constructors for high-performing Drivers.

Stewarding

- **Stewards:** The Stewards for Season 5 will comprise three members:
 - Mapa
 - Nuwie G
 - Sahan
- **Jurisdiction & Standing:** Only directly affected Drivers/Constructors are allowed to refer incidents to the Stewards for review.
 - “Affected” means a Driver who was directly impacted by another competitor’s act and/or omission – unaffected Drivers/Constructors are prohibited from referring incidents to the Stewards (including the submission of any testimony, evidence or documentation in relation to ongoing appeals which they are not involved in, unless expressly requested to do so by the Stewards). Unaffected Drivers/Constructors may request permission from the Stewards to provide information/evidence which they think may be relevant.
 - If an incident is not referred to the Stewards for review, it will not and cannot be reviewed (i.e. the Stewards cannot independently review incidents which have not been referred to them).
 - All incident referrals must be made within 24 hours of the start of the Race Weekend via Discord, making sure to include a brief description and attaching all relevant evidence (e.g. onboards, telemetry).
 - The Stewards will also have jurisdiction to review any complaints relating to the breach of the guidelines, unsportsmanlike conduct and any other issues between Drivers/Constructors.
- **Penalty Framework:** The Stewards will follow the FIA F1 Sporting Regulations and established stewarding principles where applicable. In any event, the penalty framework will be discussed and agreed between all the Drivers prior to the commencement of the season.
- **Precedents:** Season 5 decisions will establish new precedents and any precedents set from previous seasons will be invalid and void.
- **Appeals:** Drivers/Constructors may only appeal a decision once. Vexatious appeals will be penalised.
- **Decision Reports:** The Stewards will reserve the right not to issue extensive decision reports in the sole discretion.
